CODEBASE SOFTWARE HOUSE

2022 - Present

- Personal Expense Manger app in which you can add your total income, total expense and total balance.
- You can add the daily expense record in the app and in the end of month you can check the record.
- Previous month record will automatically shifted in next month.

FNF (FRIENDS & FAMILY)

CODEBASE SOFTWARE HOUSE

2022

- FnF is a very interesting project build for a client. I have designed api for this project too. In this project i am getting the product data from server and order things from one app and get the order on another app like admin and user apps. I am receiving notifications of order in my orders receiving app.
